D & BETTER SELECT

D & Better Select is a combination of the top two Eastern White Pine Grades, C Select & D Select. Material of this high-quality grade combination is used for natural or stained finish applications, fine woodworking, or interior trim.

FINISH GRADE

Finish grade material is a fine appearance, knotty grade calling for sound, tight knots that can be finished to take advantage of the natural characteristics of the piece or to give a fine smooth painted surface. The reverse face of Finish shall permit sound characteristics typical of Standard grade material.

PREMIUM GRADE

Premium grade is a good appearance knotty grade used in the same applications as Finish where larger and more numerous characteristics are desired. The reverse face of Premium shall permit sound characteristics typical of Standard grade material.

STANDARD GRADE

Standard grade is highly serviceable and used in a wide variety of applications that take advantage of the full range of Eastern White Pine characteristics.

INDUSTRIAL GRADE

Industrial grade is the lowest common board grade. It admits large characteristics in any combination as long as the piece is usable full length. This material is generally used in rough construction where strength and appearance are not of primary importance.
